

Zapcode For ACT!

Zapcode is now more closely integrated with ACT! By Sage for even more convenient and intuitive use by office and field based personnel. Zapcode for ACT! has been developed to provide greater functionality than earlier versions with a far more 'user-friendly' look and feel.

Enter an UK postcode and Zapcode for ACT! returns the address up to street level from the Rapid Address File (RAF). All the user has to do then is key-in either the house number or building name. With large user postcodes, Zapcode for ACT! will return a complete address including the organisation name. Zapcode for ACT! reduces data entry time by dramatically cutting the number of key-strokes needed to capture an accurate address.

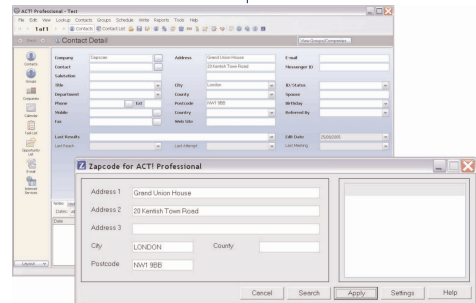

FEATURES AND BENEFITS

Zapcode For ACT!:

- Contains a new, simplified and user-friendly Windows interface.
- Provides rapid address capture (postcode to address).
- Contains a new partial postcode search option.
- Contains a 'new for old' automatic postcode update facility.
- Contains the Rapid Address File (RAF) of 1.7 million postcodes.
- Fully integrated into ACT! By Sage - It is compatible with ACT! By Sage versions 4, 5, 6, and ACT! By Sage Professional, versions 7, 8, 9 and 10 (ACT! By Sage 2005, 2006, 2007 and 2008 respectively).

TECHNICAL FEATURES

- Runs on Windows NT, 2000, 2003, XP and Vista.
- Compact database of only 11MB.
- Quarterly database updates.

Zapcode for ACT! returns the address up to street level from the Rapid Address File (RAF).
